## Recommendation letter

I'm pleased to write this recommendation letter for my formal employee Mr. Kirill Sharevich.

Mr. Sharevich was working under my supervision in Clariant Mining Solutions, as a Technical Sales Manager from 2011 to 2013.

In his role Mr. Sharevich was responsible for negotiations with customers, detecting and helping to solve their problems. Mr. Sharevich was designing and conduction laboratory tests, formulating conclusions and issuing recommendations for customers.

As a mineral processing engineer and metallurgist, Mr. Sharevich showed himself as a skilled professional, always striving for a new knowledge and ready to share his own in a positive and friendly manner.

I would also like to note his stress tolerance and ability to make decisions in challenging environment.
